STAT

20-1

I received your letter regarding your interest in making a contribution to the operation of our proposed Child Day Care Center. As you may know, our Center is currently only a proposal, but we do have high hopes that it will soon start to become a reality. Many of us at the Agency, of course, are very excited about the prospects of building this very important and necessary addition.

Your resume is quite impressive. We will be interested in employing people like yourself who have had experience with a day care center. Although we have not yet reached the point of hiring a staff, we will certainly put your name on the list of potential staff members. Your past experience in this area makes you an excellent candidate for consideration.
